

Dina created a low cost model for medical student ultrasound training.

What will you discover?

“My purpose became not to create a low-cost phantom model, but rather create an affordable instrument of education that could be easily accessible to Al Qanatir Al Khayriyyah and any other place also limited by resources or funds.”

DINA SHEHATA

REGIONAL WINNER, ATLANTIC REGION
NATIONAL COMMERCIALIZATION WINNER

The SBC competition isn't like other science competitions: it allows you to design and propose your own biotechnology research project and work with real scientists in real labs to see it through. Plus, the SBC competition gives you the chance to win cash prizes, scholarships, and more!
