

Tasnia developed a new cancer treatment using Ferromagnetic NanoTherapy.

What will you discover?

A novel computational tool was created to advance Ferromagnetic NanoTherapy into routine clinical applications by determining the necessary parameters for an optimal therapy and provide a visualization of the nanoparticle heat generation in the body.

TASNIA NABIL
REGIONAL WINNER
SOUTHWESTERN ONTARIO
1ST PLACE NATIONAL WINNER

The SBC competition isn't like other science competitions: it allows you to design and propose your own biotechnology research project and work with real scientists in real labs to see it through. Plus, the SBC competition gives you the chance to win cash prizes, scholarships, and more!

Don't wait! Apply today!
