

Varun created a new biosensor that can help detect and diagnose CNS injuries.

What will you discover?

*The non-invasive and portable CNS injury biosensor will allow diagnosis by a finger-prick blood test in less than 30 minutes and is selective to S100B. This device costs less than \$10 per test and could aid in the prognosis of CNS injuries.*

VARUN KUNDRA  
REGIONAL WINNER, ALBERTA

The SBC competition isn't like other science competitions: it allows you to design and propose your own biotechnology research project and work with real scientists in real labs to see it through. Plus, the SBC competition gives you the chance to win cash prizes, scholarships, and more!
