

Jeremy researched a potential mechanism linking pulmonary veno-occlusive disease and iron metabolism.  
What will you discover?

*By better understanding the mechanisms through which GCN2 regulates pulmonary veno-occlusive disease, we hope to provide the scientific basis for an eventually lasting treatment to this fatal illness.*

JEREMY LEVETT  
REGIONAL WINNER, QUEBEC

The SBC competition isn't like other science competitions: it allows you to design and propose your own biotechnology research project and work with real scientists in real labs to see it through. Plus, the SBC competition gives you the chance to win cash prizes, scholarships, and more!
