

Justin researched new techniques to diagnose and cure ALS.

*This project investigates two novel techniques with the ultimate goal of making ALS a treatable disease. Firstly, we demonstrate the potential of our modified ELISA as a diagnostic tool. We also show the promise of our CT4 peptide as a cure for ALS.*

JUSTIN LIN  
REGIONAL WINNER, MANITOBA

The SBC competition isn't like other science competitions: it allows you to design and propose your own biotechnology research project and work with real scientists in real labs to see it through. Plus, the SBC competition gives you the chance to win cash prizes, scholarships, and more!

**Don't wait! Apply today!**
