Sanofi Biogenius Canada - Application Instructions

Please read and complete this form after which you will be taken to the SBC application form

Application Instructions (Please Read)

1. Read the Hints for Developing Research Proposals here: <http://biogenius.ca/participate/how-to-develop-a-proposal/>
2. Please see the Competitions web page for application deadlines found here: <http://biogenius.ca/competition-information/>
3. Fields with an asterisk (*) are mandatory before submitting your application online.
4. You must complete the application in one sitting.
5. When ALL of the fields have been filled go back and review before submitting. When you click submit you should receive a message confirming that the application has been received. If you do not receive notification it means that your application is incomplete. Review your application. Any errors will be highlighted in red. Correct them and click submit again.
6. If you should submit something that needs to be corrected you can contact us in reply to the confirmation email that you receive
7. You will receive an email to the address enter during the application process that includes a copy of your application and a signatures page.
8. Print the signatures page and obtain the appropriate signatures and mail it as indicated. Failure to submit the signed copy constitutes an incomplete application and will result in the disqualification of your project. *

I have read and understand the information above

Information on the Use of Animals can be found here:

<http://biogenius.ca/participate/rules-guidelines/> *

My proposal does not include the use of vertebrate animals (birds, fish, mammals, reptiles, amphibians) as subjects in experiments that may in any way be deleterious to the health, comfort or physical integrity of the animals

Uniqueness of Proposal *

My proposal is not identical a previous SBC project. I am aware that I must declare in my application how an improved proposal differs from one that was approved in a previous year. Any continuing research must document substantive expansion

Sanofi Biogenius Canada believes that safety is the highest priority for every science project. It is the responsibility of the student and their mentor to consider all safety aspects of the project, and to ensure that best practises are followed.

Visit the Sanofi Biogenius Students Information page for more details on Project Safety.

Violations of safety protocols may lead to disqualification at either the Regional or National competition. Violations include projects that put the student or others in danger of injury, or project not done with appropriate safety precautions and proper supervision.

Sanofi Biogenius Canada encourages all participants, their mentors to follow a rigorous safety culture to ensure that no one is ever harmed as a result of a science project. *

I acknowledge that I have reviewed the Sanofi Biogenius Canada Project Safety information and agree to abide by and follow all safety recommendations and agree that I will be subject to disqualification for not following these guidelines
