

Sajeev developed a drug delivery system for cancer treatments that result in fewer side effects.

What will you discover?

“UPON ENTERING THE BODY, NANOPARTICLES ARE IMMEDIATELY COVERED WITH COMPLEX LAYERS OF BLOOD PROTEINS WHICH DETERMINE THE RESULTING BIOLOGICAL RESPONSE. THIS STUDY EXAMINED THE EFFECTIVENESS OF REVERSE ENGINEERING CORONA MODULATION”

SAJEEV KOHLI
REGIONAL WINNER,
SOUTHWESTERN ONTARIO

The SBC competition isn't like other science competitions: it allows you to design and propose your own biotechnology research project and work with real scientists in real labs to see it through. Plus, the SBC competition gives you the chance to win cash prizes, scholarships, and more!

Don't wait! Start today!
